

Tuition Fees Status and Assessment

Tuition fees are set at different levels for Home and International students. Before you begin your course, we must establish your tuition fee status.

In the majority of cases, we will be able to assess your fee status without needing any additional information. However, in some cases you will be asked to fill in a fees assessment form and to provide supporting documents. The following residence and immigration criteria are taken into consideration: your nationality, your immigration status in the UK, where you have been living and what you have been doing for the 3 years prior to the start of your course. A full list of different categories and requirements a student needs to meet to fit one of the home fees categories can be found on: [UKCISA \(UK Council for International Student Affairs\)](#). UKCISA also operates a [Student Advice Line](#) on +4420 7788 9214.

If you have received a fees assessment form via email, please complete the form in the advised timeframe and send it back to admissions@leedstrinity.ac.uk. If we do not receive the form within the set timeframe, the overseas rate will be applied to your application.

Appeal

If you believe you have been incorrectly classed as an international fee payer, please contact admissions@leedstrinity.ac.uk within 20 working days of the decision outcome. In your appeal, outline which home fees category you believe you meet and provide new evidence. You will then be notified within 20 working days of the outcome of your appeal.

Change of immigration status

If you have a time restricted immigration permission for your stay in the UK and are successful with your application, we will regularly check for any updates on your immigration status during your studies. However, if there is a change in your immigration status during your studies, please contact records@leedstrinity.ac.uk.

Fees assessment without application

Unfortunately, we are unable to carry out fee assessments in advance of study applications being received.
